

# Focus of this meeting

- The success of TRIPs
- TRIPs 2024/25
- Expectations and roles
- Application and funding
- Any questions?

T Level Resource Improvement Projects (TRIPs) are an opportunity for providers to produce resources that will support the planning and delivery of T Levels.

# Previous TRIPs

In 2023/24 there were 14 TRIP projects. All projects have produced high-quality resources, that focus on scaffolding learning. These resources were produced to share with the sector.

The resources are T Level specific and include lesson plans, student activities, case studies and formative assessments.

These resources are available on the [ETF TLPD website.](#)

# TRIPS 2024/25

24 TRIPS to be commissioned – commencing in November 2024 and completing by May 2025.

TRIPS are commissioned against a specific brief and a specific T Level; in all cases the focus is on applied learning and developing higher order thinking skills.

The scope of TRIP briefs has increased to encompass SEND and T Level Foundation Year.

# TRIP briefs 2024/25 support:

- delivery of core knowledge content
- development of contextualised core skills
- formative assessment of core knowledge content
- holistic delivery of core content and occupational specialism content
- delivery of T Level Foundation Year
- SEND learners.

# Expectations of successful applicants

- Attendance at two sessions before TRIP starts – one online, one F2F.
- Four F2F on-site workshops to draft, review and complete outputs.
- Working to a project plan with specific milestone dates.
- Rigorous quality assurance process.
- Use of TEAMS for communication and uploading of outputs.
- Use of specific templates to ensure high quality, accessible outcomes.

1. **Resource Producers** – responsible for creating the resources.
2. **Resource Advisors** – provide guidance and curriculum expertise to shape the initial scope of the TRIP and review and pilot the resources at regular intervals as they are produced.
- 3.

# Application and funding

Each TRIP will require one resource producer who will be funded £10,000 to produce the agreed outputs.

Wherever possible each TRIP will be supported by a resource advisor. Resource advisors are funded **up to** £3,000.

When applying to be a resource producer, providers need to apply for a specific brief and a specific T Level.

Resource advisors only apply for a specific T Level route.

Providers can apply for more than one TRIP.

- Plan your time to create the resources, make sure that you give it 100%.
- Work with a colleague and keep in regular contact with your AoC TRIP Lead.
- Familiarise yourself with the format at the start.
- Stay adaptable and open to feedback as this will help you refine your approach and create a more effective T Level course.
- Ensure you and anyone else working on the resources are aware of the deadlines.
